General customer information on REACH
Regulation for the Registration, Evaluation and Authorization of Chemicals

European chemicals regulation REACH is valid since January 1st, 2007 directly application in all EU Member States, it came into force on June 1st, 2007.

With the three elements registration, evaluation and authorization of chemicals a comprehensive management is created, with guaranteed Europe-wide high safety standards in regard to environmental and health risks when using chemicals.

Registration and evaluation obligation is valid for manufacturers (or importers of chemicals from non-EU countries), that place more than one ton of a chemical per year into circulation.

Especially worrying substances are additionally subject to an authorization obligation.

Electromach, Member of the R.STAHL Technology Group, is a manufacturer of explosion-protected equipment. We sell solely non-chemical products (manufactures). Under normal and reasonably foreseeable conditions of use these products will discharge no substances.

All Electromach products are manufactured in accordance with the applicable regulations. They aren't subject to any registration, evaluation and authorization obligation.

Kind regards
